Experience

INTERN - CROWDFYND, INC. (JUNE 2014 - AUGUST 2014)

- Helped generate new ideas to attract potential customers.
- Helped team realize Responsive Design is really important now that more people are browsing the Internet on their phones.
- Created an HTML, CSS, jQuery wire-frame to give an idea of how the website should look on a mobile phone.

TEAM LEADER - JET LITHO (2011-2014)

- Led a group of people and responsible for the production and quality of products and ensure that they are free of defects.
- Implemented overall equipment effectiveness (OEE) to assess production.
- Served as an advisor to management on ways to improve production and quality within my department.
- Used the 5S program reduce waste and optimize productivity through maintaining an orderly workplace and using visual cues to achieve more consistent operational results.
- Held productive and effective weekly meetings with supervisor and team to brainstorm and generate new ideas to better improve the quality of the products.
- Used lean manufacturing to review job environment and satisfaction, motivate participation among the team, develop new behavior patterns, and insist on lean methods and tools to save the company money.

Education

Front End Development - StartUp Institute(2014)

Studied front-end web development, user experience design, and startup structure/culture. Startup Institute is an eight week, accelerated learning collaborative geared to produce top notch startup employees/founders.

AS Accounting - Triton College (2007-2010)

Interest

I love going to the movies when I'm not coding. I also enjoy looking for the latest trends on Hacker News, Quora, Stack Overflow and Reddit. I happen to play sports during the summer as well and I'm a huge fan of European Soccer. I fell in love with code when I took an HTML/CSS course on Udemy and ever since then, I haven't looked back. I love coding and making websites.
